### Andy's Corner.. Keep Your Arm Swing

**Loose :** The key to a loose arm swing is keeping your thumb relaxed in the ball. In order to have a relaxed grip in the ball your ball has to be drilled and fitted correctly. If your thumb hole feels loose it will cause you to squeeze the ball and muscle your swing. Inserts in the thumb and finger holes can help give you a more secure fit. If you have a large webbing at the base of your thumb add extra bevel all around the top edge of the thumb hole for a better fit.
